

Penta Core Hertz Water Activator

Quality Water Makes Your Life Better

Can produce **7.6Hz** linear-structured cell

 Only takes three minutes Can process all consumable liquids

FIVE-CORE TERAHERTZ! STRONGER! BETTER!

What is the Penta Core Terahertz Water Activator?

It is a non-contact molecular activation device for water, capable of activating all consumable liquids using a unique "additive-free, non-contact" physical method.

Through patented technology, the 0.96THZ Terahertz wave has an activating effect on drinking water. It transforms the clustered state of ordinary water into cell-direct water with a straight-chain structure that the human body needs. This water can be directly absorbed by cells. Regular consumption helps enhance cellular activity, lower blood viscosity, eliminate waste and toxins, and repair each cell, promoting overall health and vitality.

As Constituents of Cells and Body Fluids

Approximately 70-85% of cells contain water, while fat accounts for less than 10%. Water is also a major component of blood.

Regulating Body Temperature

It generates, absorbs, and transfers heat throughout the body to maintain temperature stability.

Four Functions of Body Hydration

Acting as a Solvent

It dissolves various substances within the body.

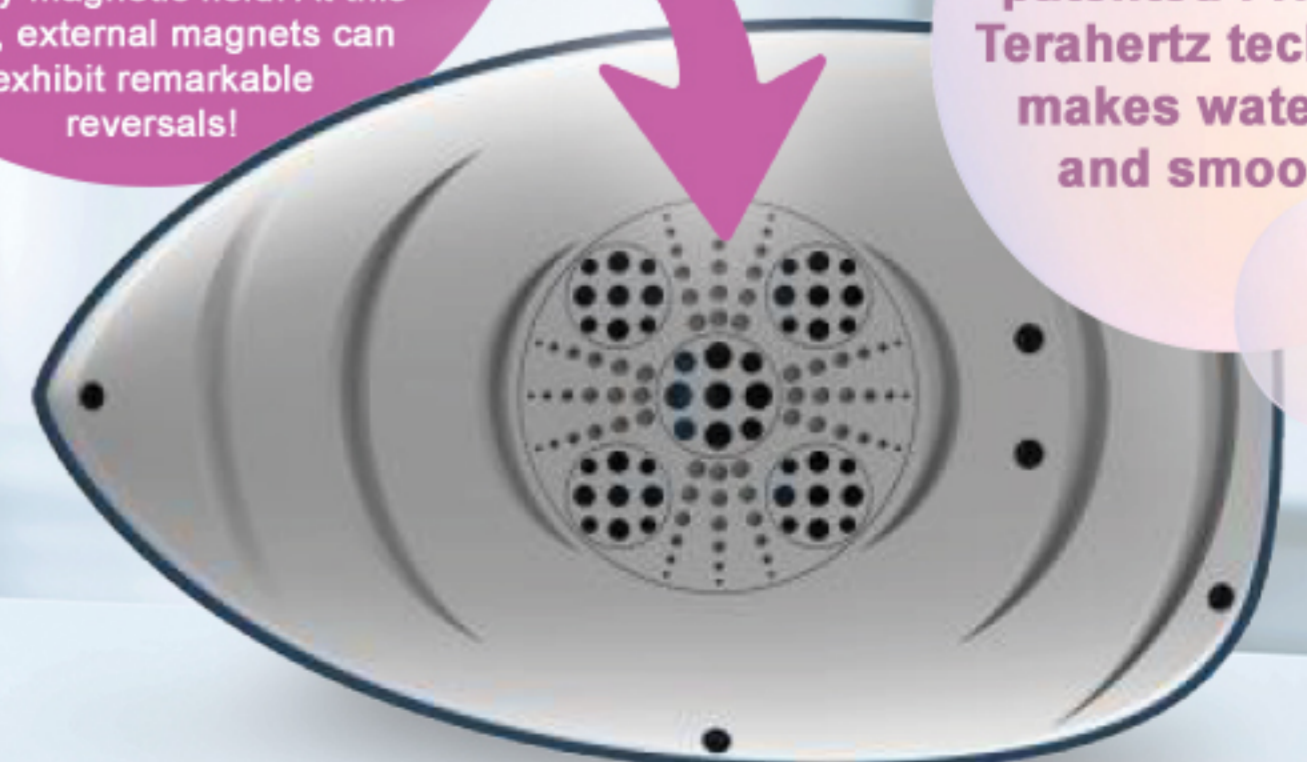

Serving as a Lubricant and Cushion

In joint lubrication/fluid. As a cushion for tissues/organs, such as the brain, uterus, eyes, and more.

Conduct a test using a small, strong magnet. When activating the Terahertz energy device, it emits a specific energy magnetic field! At this point, external magnets can exhibit remarkable reversals!

Exclusive patented Five-Core Terahertz technology makes water finer and smoother!

*Only Terafit TEKO is the Five-Core Terahertz!

Usage Steps

Maintenance of the blue lid

Handle with care Do not rinse with water, only wipe with a damp cloth!

Suitable for both cold and hot water. Can be boiled at high temperatures or refrigerated at low temperatures. Energy remains unchanged for 2 years.

- 1** Prepare the TEKO Penta Core Hertz Water Activator. 
- 2** Add an appropriate amount of water according to your needs (TEKO's maximum capacity is 4 liters). 
- 3** Press the switch and scan the water, continuously for 3 minutes (180 seconds). 
- 4** The water is now ready for consumption/use throughout the day. 

Benefits of Drinking Hertz Water for the Body

Antioxidant, Antibacterial, Antiviral, Anti-Radiation

- Close to the frequency of human cells, enhancing cellular communication.
- Reduces the likelihood of major diseases.
- Improves blood viscosity, reducing the likelihood of cardiovascular incidents.
- Adjusts the body's pH level.
- Inhibits harmful bacteria and viruses.
- Increases cellular oxygen content.
- Powerful sterilization effect, enhances immune system.
- Strong antioxidant effect.

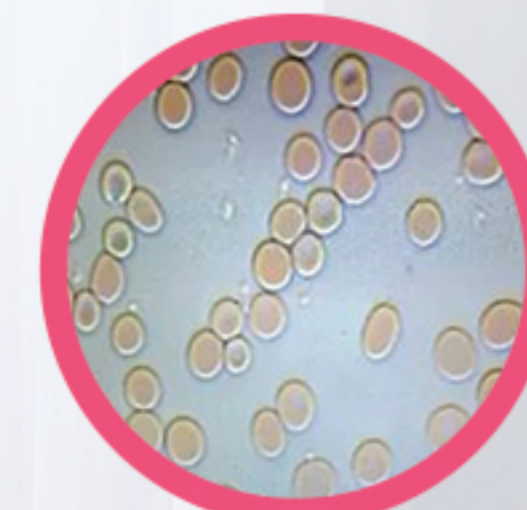

Comparison Before and After Drinking Hertz Water for Blood Viscosity

Improving Blood Viscosity

Comparison of blood viscosity before and after drinking water for 20 minutes

Before

After

After consuming Penta Core Hertz Water, cells rapidly absorb nutrients to nourish the entire body.

Love at 7.6 Hz

Drink good water Drink enough water Drink more water
