

The "Dual Sun Care" technology mimics plant photosynthesis, transforming UV rays into "beauty light", effectively boosting hyaluronic acid and collagen production for more youthful, vibrant skin.

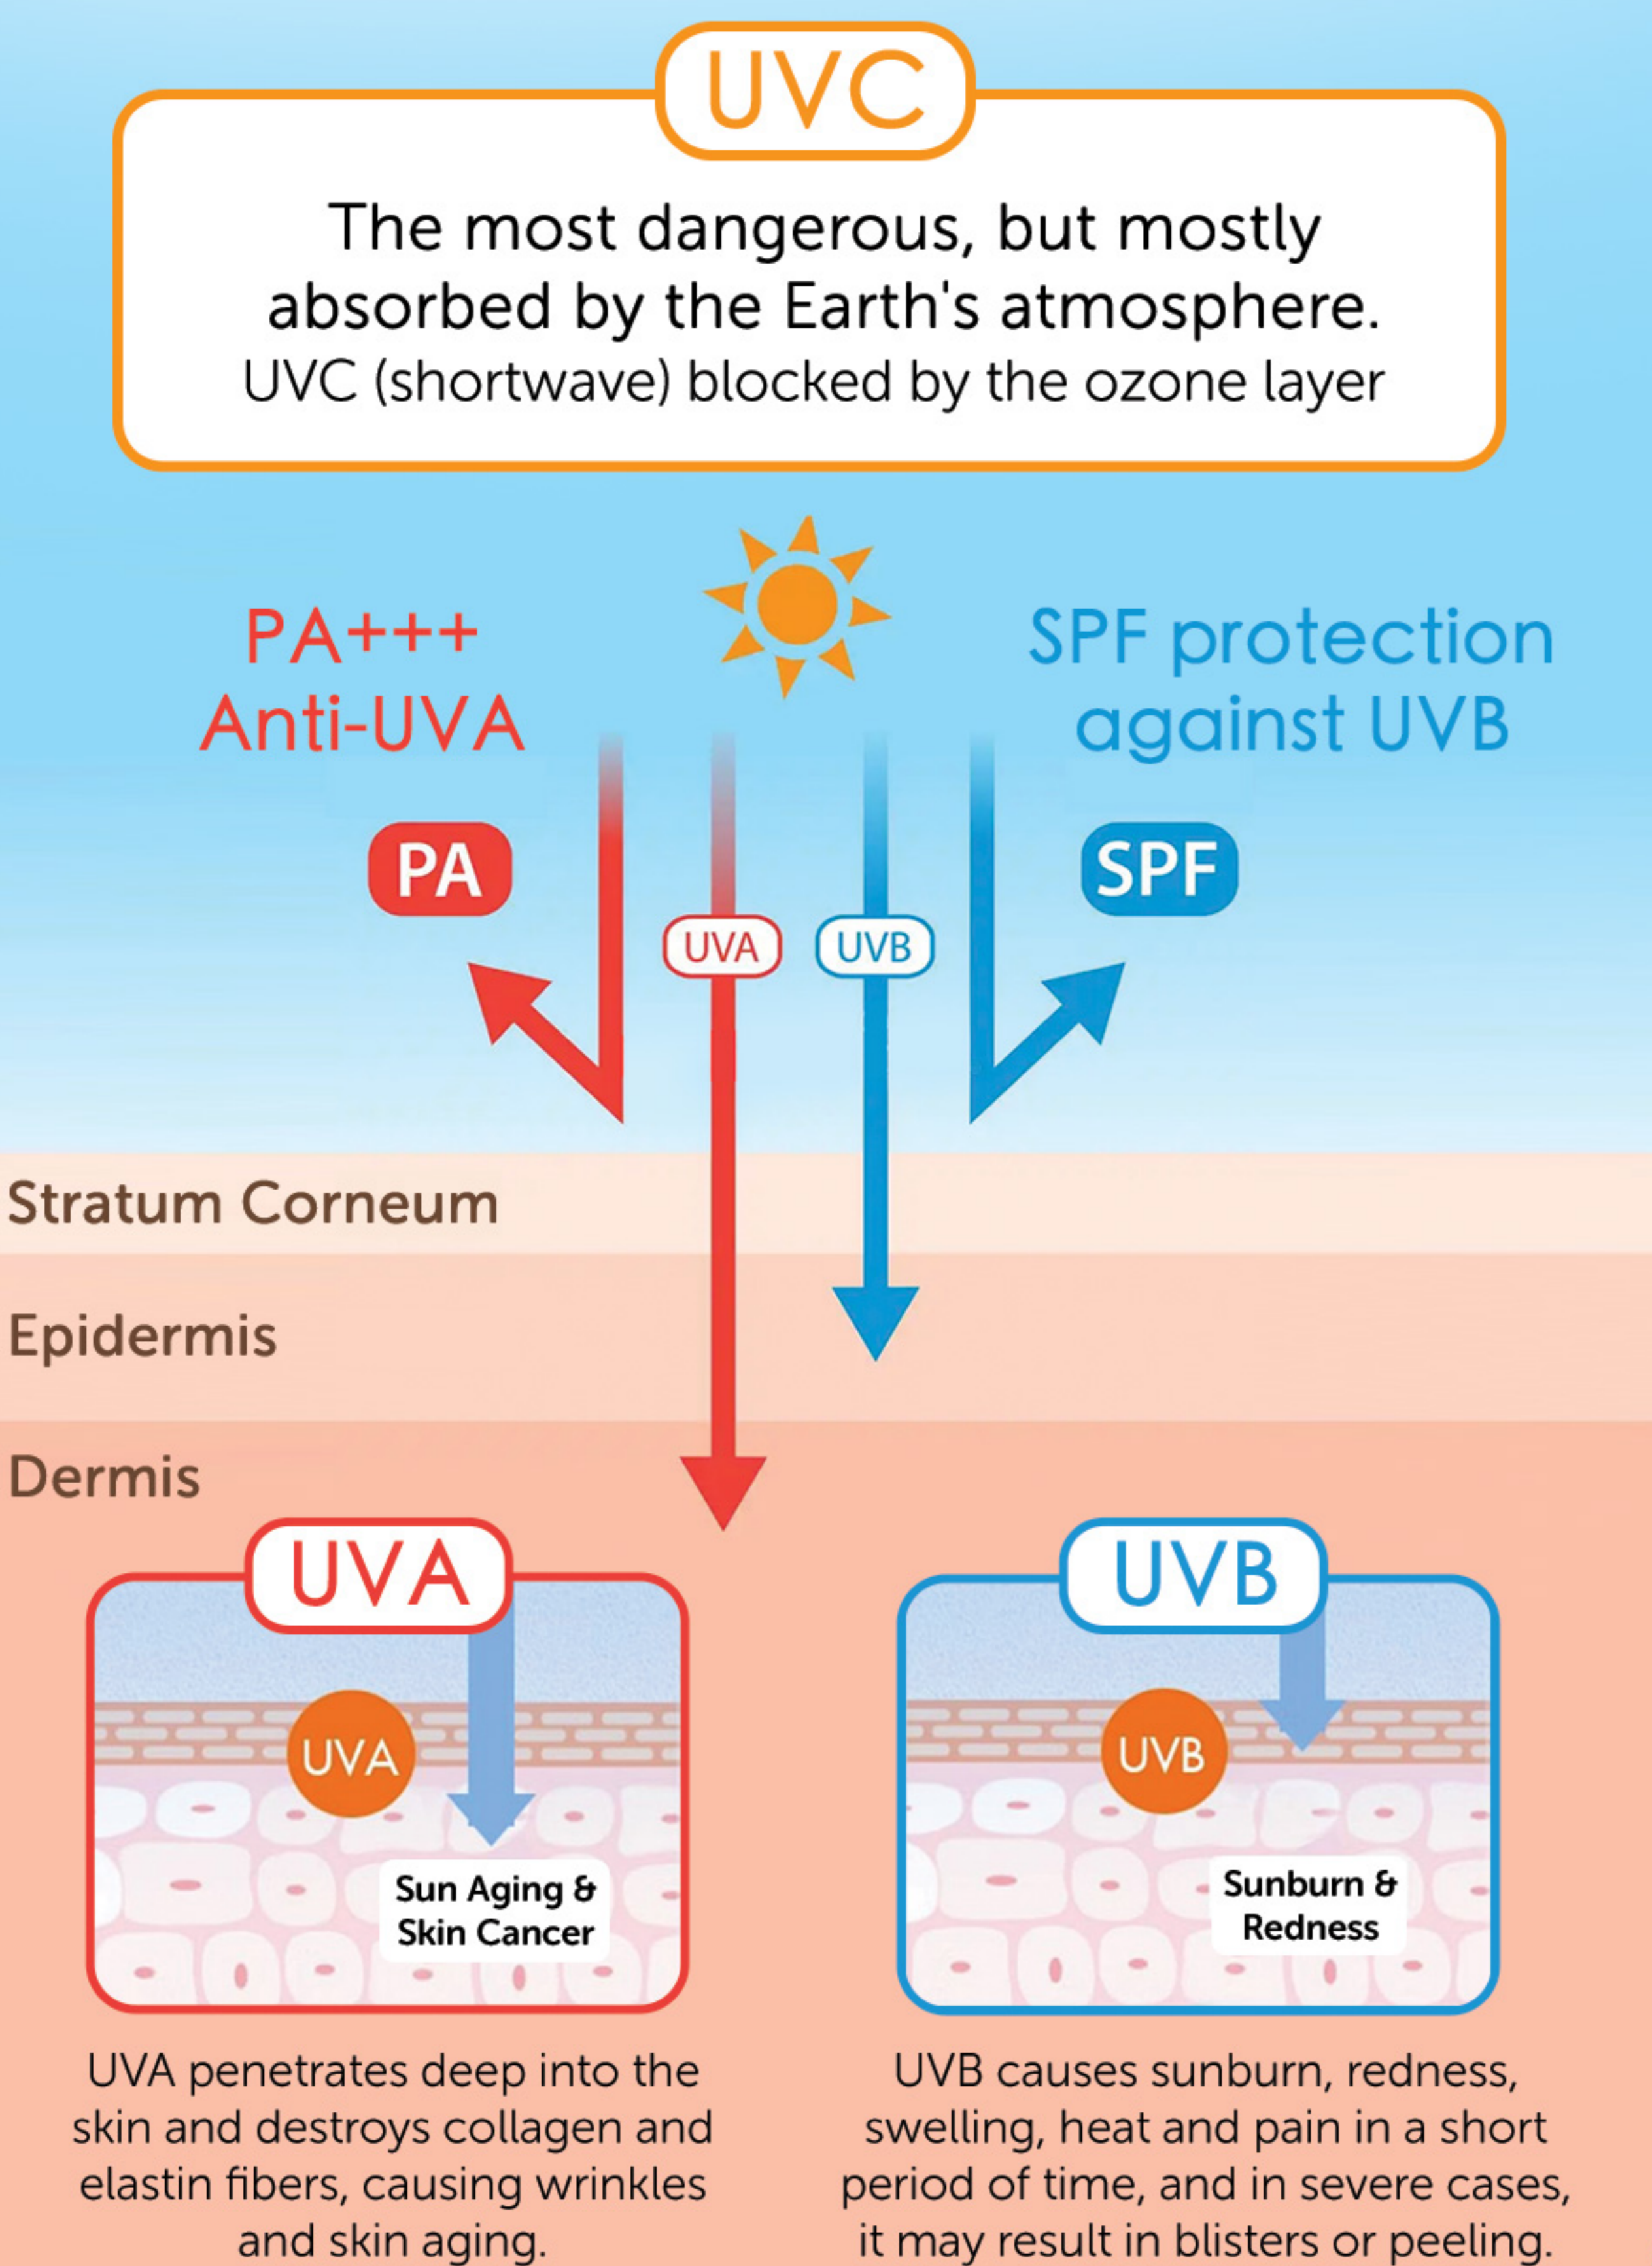

Ultraviolet Ray

Ultraviolet (UV) rays can damage the skin, leading to sunburn, premature aging, and even skin cancer. Therefore, it is important to take protective measures.

Understanding Ultraviolet Rays

Ultraviolet rays are invisible rays from the sun and are divided into three types:

UVA longwave UV, **UVB** mediumwave UV and **UVC** shortwave UV

- ✓ Anti-allergic
- ✓ Brightening
- ✓ Facial Preservation
- ✓ Repair
- ✓ Moisture-locking
- ✓ Natural Finish, No White Cast

AIVOLUTION ULTRA DEFENDER

- High Protection Sunscreen
- Instant Film Formation
- Water & Sweat Resistant

#1 Tube = Isolation + Physical Sunscreen + Concealer + Skin Nourishing

Do you still have these problems with sunscreen?

Time consuming to form a film

Heavy & Cakey

Clogged face, clogged pores leading to acne

Sweating makes makeup come off easily
Protection does not last

Weak sun protection

Redness & Aging

Greasy & heavy
Acne & Skin Damage

Caking & Fake Whitening
Unnatural/like not applying

Testing UV resistance

Water and Sun Resistant • Refreshing & Non-Sticky

Forms a protective film, doesn't come off easily when exposed to water.

Easily absorbed, light and non-greasy.

Natural Plant-Based ingredients
Protect from sun exposure,
nourishes from within.

Portulaca Oleracea

Soothing

Reduces sensitivity and redness, quickly restores skin balance.

Scutellaria Baicalensis

Gentiana Scabra

Anti-Inflammatory & Antioxidant

Repairs skin, prevents premature aging, maintains health and vitality.

Papain

Glycyrrhiza Uralensis

Whitening

Even out skin tone, reduce dark spots, brighten the complexion and impart a natural glow.

Alonicera Japonica

Chrysanthemum Indicum

Antibacterial

Inhibits bacterial growth, prevents acne and inflammation, enhances skin defence.

Squalane

Moisturizing & Repairing

Long-lasting hydration, repairs skin barrier, enhance softness and elasticity.

Invisible Sun Umbrella
No Fear of the "Dark" Forces

New Generation Sunscreen
Blocks 99.99% of UV Rays

Sun Protection • Ultra Water Resistant
• UV Protection

Three Simple Steps for Sunscreen and Skin Care

STEP 1

Use the Right Amount

Take about a coin-sized amount of sunscreen.

STEP 2

Dab on the Face

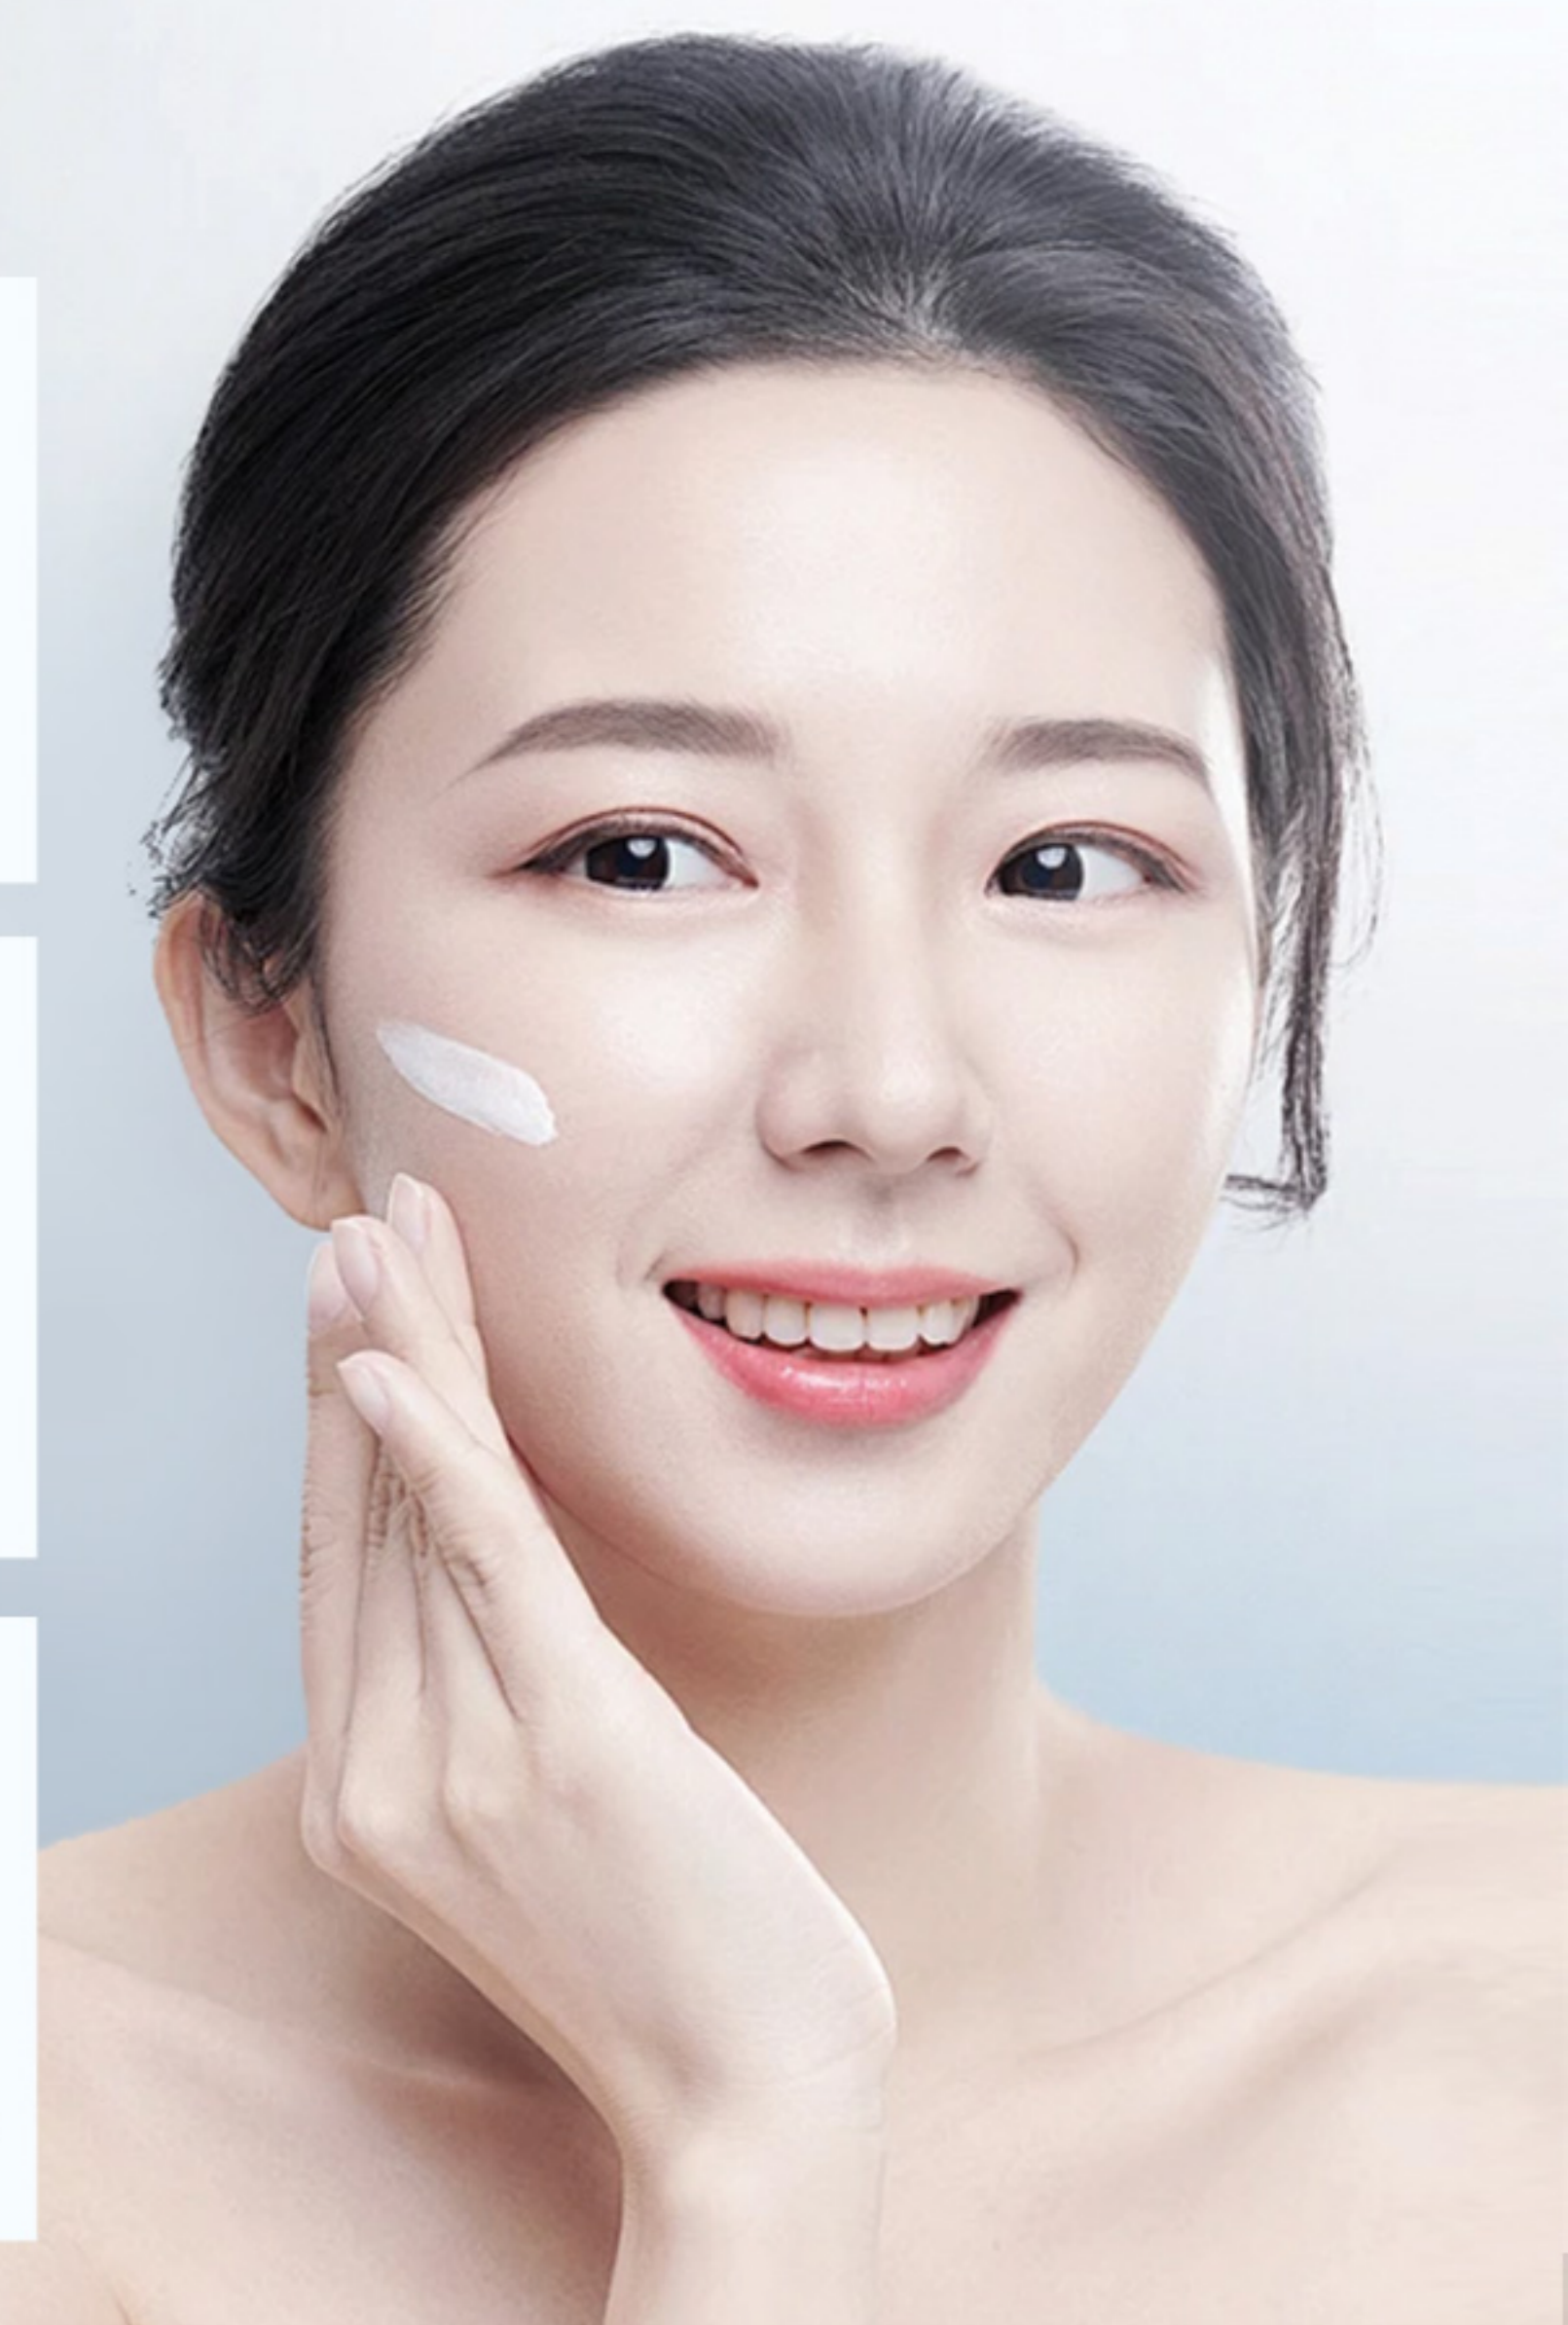

Apply to five areas: both cheeks, forehead, nose, and chin.

STEP 3

Spread Evenly

Gently spread with your fingertips until absorbed and forms a protective layer.

High Protection Against Light Aging, Skin Brightening, and Nourishing

Fades dark spots, reveals a brighter complexion.

Before

After

Laugh lines and puppet lines appear reduced.
